

EIGHT PUT IN CHAINS.

Smuggled Rum Plays Mischief with Nichteroy's Sailors.

Sixty New York Volunteers Set Ashore at Pernambuco.

Government Commander Wounded at Governor Island.

(Copyrighted, 1893, by the Associated Press.)
PERNAMBUCO, Dec. 21.—The report is untrue which has been widely circulated to the effect that a mutiny occurred on board the Brazilian cruiser *Nichteroy*, but by some means or other, which would indicate considerable laxity of discipline on board the Brazilian vessel, the crew of the *Nichteroy* managed to secure a quantity of liquor from the bumbots, which have been crowding around the dynamiter ever since she arrived here, and the result was a drunken row.

The officers of the *Nichteroy*, somewhat too late, detected the smuggling of liquor aboard, and proceeded to put a stop to it. Eight men of the *Nichteroy*'s crew were clapped in irons and were stowed away until they recovered from their rebs.

The liquor is said to have been smuggled on board, hidden in boxes of jad, in coconut shells or stowed in diders, which were easily hidden away en once in the possession of the lads.

about one hundred of the seamen who apped in New York have, of their own accord, and on their own terms, signed titles as regular sailors of the Brazilian navy. Sixty of the New Yorkers refused to sign, or who were found to be undesirable members of the crew, were sent ashore last night and a number of others will be sent ashore to-day. The places of the men landed will be held by Brazilians or others who have been secured at this and other ports. It is reported that the Government forces recently tried to capture the Island of Governor, in the Bay of Rio, and that President Peixoto's troops, led by Gen. Teles, were led into a pretty bad trap, and that after losing a number of men they were surrounded and are reported to have surrendered.

Admiral de Gama is said to have commanded the insurgent forces in person during the engagement, and the Government leader, Gen. Teles, is said to have received severely wounded.

"The World's" special advices to-day state that the *Nichteroy* has sailed southward from Pernambuco. Presumably the will rendezvous with the America at Bahia, and both ships will then proceed to Rio.

CONDENMED BY PEIXOTO.

Ship Owners to Be Shot, It Is Said, for Carrying Rebels.

(By Associated Press.)

LIVERPOOL, Dec. 21.—The Portuguese Consul at this port has received information to the effect that two ship owners, named Beuchmal, who were formerly in business at Liverpool and at Manchester, and who are now making their business headquarters at Rio de Janeiro, have been sentenced to be shot by President Peixoto for carrying insurgents upon one of their steamships.

NEW YORK ORDERED TO RIO.

She Will Probably Put to Sea Sunday Morning.

The statement can be positively made to-day that the United States cruiser *New York* is going to Rio de Janeiro. Orders for her to proceed as soon as possible have been received by Admiral Gerard, Commandant of the Navy Yard. It is expected that she will be ready to proceed Sunday morning.

Notwithstanding dire predictions, the big cruiser was floated into the wooden drydock at the Brooklyn Navy-Yard, and the work of getting her into a boat glides over the Central Park pond.

She left her anchorage at the coal dock at 6 o'clock and was guided to the entrance of the drydock by a tugboat. Then the windlass, capstan and steam winches were brought into use, and with the *New York*'s own power she was hauled up, and the deck of the latter hundred women were scraping her sides and bottom, preparatory to repainting her. To-morrow she will be ready to sail, it is expected, and on Sunday morning, it is stated, she will start for Rio Janeiro.

Capt. Philip is having the ship prepared for the long voyage, and the time men have been transferred.

The crew now numbers 467, of which 60 are marines. There are forty officers.

Twenty-four men were drowned by the breaking in of water from an old Leissner & Co., of Mauch Chunk.

ACTOR WARDE A POOR DEBTOR.

Tells a Boston Court He Has 70 Cents and a Railroad Ticket.

(By Associated Press.)

BOSTON, Dec. 21.—Frederick Warde, the actor, after a day in the courts, has succeeded in taking the last of his debts. The case was that of D. H. Bissell and F. Russell of St. Louis, executors.

From the examination it appeared that Warde had been compelled to give up his residence in London, in this country.

In that year, after the failure of Baring Brothers, the York, he was dismissed, and his firm was dissolved, and the new firm of Baring, Magoun & Co. was formed, consisting of Thomas H. Baring, George C. Magoun, George F. Haring, Herbert L. Griggs and Cecil Hart.

He was a member of the Stock Exchange, also of the Union League, City, Tuxedo, Lawyers' and a number of other organizations.

The death of Mr. Warde, at the age of twenty-six feet three inches in the dry dock, the tragic accident which might strike the sides of the deck and be bent. There was no trouble, however.

The tragic accident arrived at the Navy-Yard, and the poor boy with the torpedo outfit for the *New York*. She had on board eight Whitehead torpedoes.
